To the members of the board and in particular, Jesus Silva. My name is Sergio Torres, a resident of Fullerton. I am an Electrician and who is currently out of work. I urge you to support local contractors who hire local workers like myself. Swinerton Builders intends to use an electrical contractor based in San Diego that is known for bringing in workers from outside of the county. Please use your influence to guide Swinerton Builders towards supporting local qualified electricians.

Why are you considering a contractor that does not hire locally?

Members of the board. My name is Joshua Fox and I reside in the city of Orange I am a state certified Electrician who is currently looking for work. Large projects in the area like your headquarters provide good paying jobs for local trades people like myself. What can be done to assure local residents are a priority when construction takes place on your new Headquarters ?

To the members of the board. My name is William Collins, I am a qualified and state certified electrician who lives in the city of Costa Mesa. I am currently seeking employment within the area I reside in. Large public works projects like your Headquarters help drive the local economy . How can tax paying residents of the community like myself be offered an opportunity to work on your Headquarters project?

Thank you

TO the board of directors, orange county sanitation district.

We have just came out of a horrific covic-19 which has hurt are local unions and local workers.

I have lived in orange county for over 50 yrs. Im hearing you are considering hiring none local workers

For your next project. I ask that you reconsider this decision. Local workers and union workers pay your

Taxes and need this work more know than ever. Please help us get back to being a great county and state.

Dear members of the board,

My name is Danny Dockery, a resident of Huntington beach. I am an Electrician who is currently out of work and unable to support my family. I urge you to support local contractors who hire local workers like myself. It has come to my attention that Swinerton Builders intends to use an electrical contractor based in San Diego that are known for bringing in workers from outside of the county. During these uncertain times many jobs have been shut down due to Covid and caused financial distress for myself and other IBEW 441 union members. Please use your influence to guide Swinerton Builders towards supporting local qualified electricians. Your attention to this is greatly appreciated.

Thank you,

Danny Dockery

To the members of the board,

My name is Frank Estrada. I live in Anaheim but have lived in Orange County all my life.

I am a qualified and state certified journeyman electrician. I went through the apprenticeship. to keep abreast with changing rules and regulations with continuing education courses.

Large public works projects, such as your headquarters, helps the Orange County economy continue to move forward by employing more tradesmen . Large projects allow us to bring more students into the apprenticeship preparing the next generation of electricians.

Please use this opportunity to keep Orange County strong by hiring more Orange County people.

Thank you for your time.

Frank Estrada

Meeting: BOARD OF DIRECTORS on 2021-05-26 6:00 PM - Joint Meeting with OC San Financing Corporation

Item: PUBLIC COMMENTS:

eComment: Members of the board. my name is Luis Lopez and I reside at 621 W. Wilson st. in the city of Costa Mesa. I've recently been made aware of a plan to construct a new Headquarters bldg. at the OCSD plant near my home. I'm am a State certified Electrician who is unemployed due to the Covid 19 pandemic. Projects like yours are crucial to local residents like myself and my hope is that you insure local residents are considered and prioritized when you award the contracts for such projects. thank you.

Dear Committee members,

My name is Jose DePaul, I have been an electrician with IBEW local 441 for twenty four years. In that time I have worked on many local projects through out my career including several at the OCSD facilities. I am writing you today to encourage the use of local labor.

The benefits of local hires are many, here are a couple that I feel are most important.

Local workers who are local residents are also local tax payers.

The phrase "Local job, local labor, equals local money" comes to mind. In turn that money will serve as an investment for future local projects. These projects will benefit the affected community in a positive manner, provided local hands make up the workforce.

Secondly, with the growing concern of a shortage of skilled labor in the near future, local apprentices will benefit from the skills learned on a project such as yours.

As well as creating a community workforce made up of local hands who will be available for future local projects.

In closing I will say I hope you consider what I have written, and use a hands on approach requiring local labor. Sincerely, Jose DePaul.

Hello this is Dan Todd and I support the union being awarded this type of work it is to support the local families for a proper living wage to to live a quality life Union work is the best work I believe this project should be awarded to a union contractor project name. Headquarters complex, Plant number 1, Project number P1-128A

Sincerely
Daniel C Todd

My name is Carlos Salgado I am a union member of the IBEW local union 441. Id like to say that it's very important to my family and I that jobs like the project HEADQUARTERS COMPLEX at plant no.1, project No. P1-128A, employ local workers that live in the area. For example, I live in the city of STANTON. Let's say that DYNALECTRIC gets this job, I would have a chance to work at this project. With a 20 minute drive from home to work that would give me the opportunity to make it my kids kickboxing classes and spend more time with my family. I'm very sure that there's other union members that feel the same. So please, please reconsider on who you are going to have working at this project. I live in Orange County, I make my money in Orange County and I spend my money in Orange County. Thank you for your time.

IBEW L.U. 441 Carlos Salgado
