## ENS Resources: 2023 End of Year Review

Issue	Project	Status	Value to OC San
<u>Funding</u>	Per- and	\$3.45 million in funding secured in Federal	OC San maintains its
	polyfluoroalkyl	assistance to demonstrate Supercritical	reputation as advancing
	substances (PFAS)	Oxidation Technology.	solutions to address
	Treatment		emerging treatment needs
			that can lead to reduced
			ratepayer costs.
Build America Buy America (BABA)	Seek Clarification on BABA Compliance	Working with United States Environmental Protection Agency (USEPA) Office of Water, we provided key contacts with Region IX staff and provided USEPA HQ staff with infromation on OC San project and needs.	Strong relationship established with USEPA contracting staff to ensure compliance with BABA and other mandates required forms for obligation of funding.
BABA/American Iron and Steel (AIS)	Community Project Grant Assistance	Working with, and monitoring, USEPA received advanced notice that BABA SRF waiver to incorporate OC San projects funded with federal assistance.	OC San has formal commitment that its project is not subject to BABA or AIS. This clarification should expedite project implemenation and reduce project costs.

Issue	Project	Status	Value to OC San
