BILL	AUTHOR	SUMMARY	LATEST ACTION	OC SAN POSITION	LEGISLATIVE PLAN	OTHER POSITIONS
AB 370	Carrillo [D]	This bill would revise the definition of unusual circumstances as it applies to a state of emergency to require the state of emergency, in addition to currently affecting the agency's ability to timely respond to requests as described above, to also require the state of emergency to directly affect the agency's ability to timely respond to requests as described above. By restricting the time period in which a local agency may respond to requests, thus increasing the duties of local officials, this bill would create a state-mandated local program. Current law requires each agency, within 10 days of a request for a copy of records, to determine whether the request seeks copies of disclosable public records in possession of the agency and to promptly notify the person of the determination and the reasons therefor. Current law authorizes that time limit to be extended by no more than 14 days under unusual circumstances, and defines "unusual circumstances" to include, among other things, the need to search for, collect, and appropriately examine records during a state of emergency when the state of emergency currently affects the agency's ability to timely respond to requests due to staffing shortages or closure of facilities, as provided. BILL	AUTHOR	SUMMARY	LATEST ACTION	OC SAN POSITION	LEGISLATIVE PLAN	OTHER POSITIONS
AB 538	Berman [D]	Current law requires certified copies of records to be available upon request by the public and sets forth a process for the public to request the records either through the awarding body or the Division of Labor Standards Enforcement. Current law makes any contractor, subcontractor, agent, or representative who neglects to comply with the requirements to keep accurate payroll records guilty of a misdemeanor. This bill would require the awarding body, if a request is made by the public through the awarding body and the body is not in possession of the certified records, to obtain those records from the relevant contractor and make them available to the requesting entity. The bill would authorize the Division of Labor Standards Enforcement to enforce certain penalties if a contractor fails to comply with the awarding body's request within 10 days of receipt of the notice. AB 794	Gabriel [D]	The California Safe Drinking Water Act requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. The state board's duties include, but are not limited to, enforcing the federal Safe Drinking Water Act (federal act) and adopting and enforcing regulations. Current law authorizes the state board to adopt as an emergency regulation, a regulation that is not more stringent than, and is not materially different in substance and effect than, the requirements of a regulation promulgated under the federal act, with a specified exception. This bill would provide that the authority of the state board to adopt an emergency regulation pursuant to these provisions includes the authority to adopt requirements of a specified federal regulation that was in effect on January 19, 2025, regardless of whether the requirements were repealed or amended to be less stringent. The bill would prohibit an emergency regulation adopted pursuant to these provisions from implementing less stringent drinking water standards, as provided, and would authorize the regulation to include requirements that are more stringent than the requirements of the federal regulation.	Currently in the Assembly Appropriations Committee	Watch	State Priorities: Contaminants of Emerging Concern - Support legislation that will eliminate non-essential PFAS uses to reduce and mitigate PFAS in everyday consumer goods. BILL	AUTHOR	SUMMARY	LATEST ACTION	OC SAN POSITION	LEGISLATIVE PLAN	OTHER POSITIONS
AB 810	Irwin [D]	Current law requires that a local agency that maintains an internet website for use by the public to ensure that the internet website uses a “.gov” top-level domain or a “.ca.gov” second-level domain no later than January 1, 2029. Current law requires that a local agency that maintains public email addresses to ensure that each email address provided to its employees uses a “.gov” domain name or a “.ca.gov” domain name no later than January 1, 2029. Current law defines “local agency” for these purposes as a city, county, or city and county. This bill would recast these provisions by instead requiring a city, county, or city and county to comply with the above-described domain requirements and by deleting the term “local agency” from the above-described provisions. The bill would also require a special district, joint powers authority, or other political subdivision to comply with similar domain requirements no later than January 1, 2031. AB 872	Rubio [D]	Current law, known as the Green Chemistry program, requires the Department of Toxic Substances Control to adopt regulations to establish a process to identify and prioritize chemicals or chemical ingredients in consumer products that may be considered as being chemicals of concern. Current law requires the regulations to include criteria by which chemicals and their alternatives may be evaluated by the department, as provided. Current law requires the department, following the completion of an alternatives analysis, to provide a regulatory response that may include, but is not limited to, not requiring any action and restricting or prohibiting the use of the chemical of concern in the consumer product. This bill would, beginning January 1, 2028, prohibit a person from distributing, selling, or offering for sale a covered product, as defined, that contains intentionally added PFAS, as defined, unless the department has issued a regulatory response for the covered product pursuant to the Green Chemistry program or the prohibition is preempted by federal law. SB 318	Becker [D]	Existing law designates the State Air Resources Board as responsible for controlling vehicular air pollution, while air pollution from non-vehicular sources is managed by air pollution control districts. Air districts can require permits to construct or operate equipment emitting air contaminants, with certain exceptions. Under the Clean Air Act, new or modified major sources must use best available control technology for emissions. This bill defines "best available control technology" for these purposes and establishes a process for evaluating permits. It requires the executive officer of the state board to review permits for Title V sources and object if they do not comply with the Clean Air Act. The bill also requires a technical feasibility analysis for certain renewal permits and allows for more stringent measures than those proposed by applicants. The bill revises the precertification program by updating criteria every eight years and expanding it to include various types of equipment and processes. It allows for temporary employee assignments to leverage expertise and invites other regulatory agencies to join the expansion of the precertification program.	Currently in the Senate Appropriations Committee	Watch	Legislative and Regulatory Policies: Air Quality - Monitor legislative and regulatory developments in response to State's goal of achieving Carbon Neutrality including the Advanced Clean Fleets and the Zero-Emission Forklift Fleets regulations pertaining to the electrification of engine-driven equipment and fleets. SB 496	Hurtado [D]	Current law requires the State Air Resources Board to manage vehicle emissions and fuel standards to control air pollution effectively, ensuring they are feasible and cost-effective. The California Global Warming Solutions Act of 2006 designates this board to regulate greenhouse gas emissions. Under this authority, the board implemented the Advanced Clean Fleets Regulation, mandating that government and high-priority fleets transition to zero-emission vehicles, with some exemptions permitted. This bill proposes the establishment of an Appeals Advisory Committee to review denied exemption requests. This committee, comprising specified government and non-government representatives, must meet monthly, with meetings recorded and accessible online. They must review appeals and provide recommendations within 60 days, which the board must consider publicly within another 60 days. Certain vehicles involved in emergency responses would be exempt from the regulations, and fleet owners will not be pressured to produce zero-emissions vehicle purchase agreements to delay transitioning mandates.	Currently in the Senate Appropriations Committee	Support	Legislative and Regulatory Policies: Air Quality - Monitor legislative and regulatory developments in response to State's goal of achieving Carbon Neutrality including the Advanced Clean Fleets and the Zero-Emission Forklift Fleets regulations pertaining to the electrification of engine-driven equipment and fleets. BILL	AUTHOR	SUMMARY	LATEST ACTION	OC SAN POSITION	LEGISLATIVE PLAN	OTHER POSITIONS
SB 595	Choi [R]	Existing law regulates how local agencies can invest public funds in specific securities and financial instruments, subject to certain conditions. Until January 1, 2026, agencies with under \$100 million in assets can invest up to 25% in eligible commercial paper, while those with \$100 million or more can invest up to 40%. Starting in 2026, this changes to a uniform 25% limit, regardless of asset size. This bill would extend the current distinction until January 1, 2031, postponing the universal limit change to that date. Additionally, the bill extends until 2031 the authority for agencies to invest in certain U.S. government securities that might accrue zero interest if held to maturity. Regarding financial reporting, the law requires the Controller to publish annual financial and compensation reports for all counties, cities, and school districts. Currently, if a local agency fails to submit these reports within 20 days after notification, they must pay a penalty based on revenue. This bill changes the deadline to 10 months after the fiscal year's end and mandates the Controller to assess whether machine-readable audited financial statements can replace traditional reports. The Controller must report to the Legislature on this by December 31, 2026. SB 601	Allen [D]	The bill proposes changes to existing water quality control laws in California. It modifies requirements for businesses involved in regulated industries to demonstrate compliance with water quality permit programs when applying for permits. It extends the requirement to include businesses seeking construction permits for activities disturbing over one acre of land, with specific information such as planned disturbed acreage and identification numbers needed. Additionally, the bill permits the State Water Resources Control Board to adopt water quality control plans for all state waters, termed "nexus waters" (non-navigable waters), aligning them with federal Clean Water Act standards. The bill mandates that state's water quality control standards incorporate nexus waters in federal compliance processes, and reiterates state policies for managing proposed discharge activities. It specifies financial penalties for violating waste discharge requirements, adjusting annually from 2026, with funds directed towards the State Water Pollution Cleanup and Abatement Account.
