RE: PUBLIC HEARING MAR. 22, 2023 6 P.M.

This is a written protest regarding the OC San's proposed sewer service fee increase for 2023 – 2028. I have noticed that the sewage fee for my parcel has consistently increased year after year. This charge appears on my property tax bill, along with two water, two landscaping, and two community college charges. With unprecedented high inflation for the past several years causing all consumable items to increase in price as well as all the other utility companies lining up to request rate hikes on rate payers taking effect in January, it is becoming increasingly difficult for middle America to be able to afford living here. Please do not increase the sewage service fee at this time. There should be a moratorium until such time as the economy and inflation is under control.

Thank you for your time and consideration.

Sincerely,

Vivian Le
