Title
Clean Water Allotment Modernization Act of 2023

Description
Clean Water Allotment Modernization Act of 2023 This bill revises the formula the Environmental Protection Agency (EPA) uses to determine how to distribute funds from the Clean Water State Revolving Fund (SRF) program. Under the program, the EPA allocates funding to states for water quality infrastructure projects, such as wastewater systems and stormwater management projects. In FY2024-FY2028, the EPA must provide an initial allotment to each state that is equal to the amount the state received in FY2023. The EPA must also provide an additional allotment to each state that is based on its share of the U.S. population. In FY2029 and each subsequent fiscal year, the EPA must use an updated allotment formula, which is based on the needs of states as identified in the most recently available clean watersheds needs survey. Beginning in FY2024, the formula must also provide allotments for Indian tribes and territories. In addition, the formula must provide an allotment for EPA's oversight of SRF projects to ensure they use American iron and steel.

Bill Summary: Last edited by Eric Sapirstein at Apr 29, 2023, 9:02 PM
Provides for a set aside from Clean Water SRF appropriations to conduct Buy America oversight compliance, establishes that each state's allotment must be at the same level as FY 23 during FY 24-28 and additional allotments based on percent of state population to the nation. FY 29 and beyond allotments to be determined by new formula based upon Clean Water Needs Survey.

Title
Water Affordability, Transparency, Equity, and Reliability Act of 2023

Primary Sponsors
Bernie Sanders

Bill Summary: Last edited by Sarah Sapirstein at Apr 5, 2023, 4:45 PM
S. 938 would establish a \$35 billion trust fund to support the construction of water and wastewater treatment systems. Funding would be derived from an increase in the corporate tax rate. The bill also imposes requirements for Department of Justice and USEPA to carryout activities to determine whether water and wastewater operators discriminate in the provision of services. USEPA must also investigate the impact of rates on service cut-offs. Additional provisions would address use of assistance to promote regionalization of systems and limitations on the use of federal assistance to support projects that address growth. The bill enjoys 500 NGO organizational support. It has five cosponsors. House companion bill, H.R. 1729 is cosponsored by Lee, DeSaulnier and Huffman along with 69 other House Democrats.

Title
Water Systems PFAS Liability Protection Act

Primary Sponsors
Cynthia Lummis

Bill Summary: Last edited by Eric Sapirstein at May 30, 2023, 2:55 PM
S. 1430 would provide a limited CERCLA liability (section 107) exemption for PFAS family of chemicals for water and wastewater agencies. S. 1430 would not exempt an agency from liability in cases of gross negligence. The legislation is not expected to be approved by the Senate Committee on Environment and Public Works. Instead, its policy direction could be incorporated into a committee bill addressing PFAS R&D.
