ORANGE COUNTY SANITATION DISTRICT

1

## Why Prepare

2

## Integrated Emergency Response Plan

The **Integrated Emergency Response Plan (IERP)** provides guidance, strategies, and additional resources for larger storms that meet defined criteria.

5

## IERP Code Color System

Code Blue

- **Preparation Phase**- Multiple days with multiple inches of rain predicted. May have limited capacity or saturated ground.
- **Goal** - Ensure adequate resources are in place **BEFORE** the rain starts.

6

6

## When the Rain Starts

7

## IERP Code Color System

### Code Yellow

- **Threat Phase-**
  - Plant Flow (P1 and P2): 125 MGD above normal;
  - Ocean Outfall Flow: 30 MGD above normal.
- Partial Incident Command staff activated for additional storm oversight and resources.

8

8

## IERP Code Color System

### Code Orange

- **Storage Phase-** Fill empty tanks and structures for storage. Activate additional Incident Command staff as needed.

### Code Red

- **Exceeding Capacity Phase-** Evaluate the use of the 1-mile outfall.

### Code Purple

- **Recovery Phase-** Drain and clean process units that were used to process higher flows in preparation for future storms.

9

9

## Recommendation

- Informational item.
