Judith Marquez submitted a new eComment.

Meeting: LEGISLATIVE AND PUBLIC AFFAIRS COMMITTEE on 2021-03-08 4:30 PM

Item: DEPARTMENT HEAD REPORTS:

eComment: Bloomberg Philanthropies has a \$1M grant open now and I am seeking a Letter of Support. We need a mayor to indicate their willingness to seek the funding. Anaheim would be great, as we could do the demo at Disneyland. This opportunity will develop a Community-Based Public-Private Partnership to demonstrate a project I have underway at UCI Dining. We are able to flip the FOG-to-water ratio, and provide a clean feedstock for AD.

Meeting: LEGISLATIVE AND PUBLIC AFFAIRS COMMITTEE on 2021-03-08 4:30 PM

Item: 2. 2021-1502 LEGISLATIVE AFFAIRS UPDATE FOR THE MONTH OF FEBRUARY 2021

eComment: I have a research project that is working with restaurants to recover grease waste-as-a-resource for renewable energy which supports both infrastructure needs (collection system and WWTS) and will support climate policy priorities. It is in collaboration with UCI Dining Services and a Ph.D. candidate with UCI Water-Energy Nexus Center. We are seeking support from OC SAN, IRWD (she currently interns there), and cities.

Meeting: LEGISLATIVE AND PUBLIC AFFAIRS COMMITTEE on 2021-03-08 4:30 PM

Item: PUBLIC COMMENTS:

eComment: Item #3: I support improving efficiencies in wastewater, and am a Director with CWEA SARBS (Secretary for 2nd term). I have been on the Collection Systems Committee since I worked with the City of Huntington Beach in their FOG program, and understand the issues related to policy and management. Improvements in best management practices are necessary; however, cities tend to take a reactive approach to FSEs. As part of the industrial system, FOG production processes are in need of efficiencies.
