Date	Ver.	Action By	Action	Result
12/2/2020	1	OPERATIONS COMMITTEE		

**FROM:** James D. Herberg, General Manager  
Originator: Kathy Millea, Director of Engineering

**SUBJECT:**

**PLANT WATER PIPELINE REPLACEMENT IN KINNISON, LINDSTROM, AND SCOTT TUNNELS AT PLANT NO. 2, PROJECT NO. FE18-14**

**GENERAL MANAGER'S RECOMMENDATION**

RECOMMENDATION: Recommend to the Board of Directors to:

- A. Receive and file Bid Tabulation and Recommendation for Plant Water Pipeline Replacement in Kinnison, Lindstrom, and Scott Tunnels at Plant No. 2, Project No. FE18-14;
- B. Award a Construction Contract to MMC Inc. for Plant Water Pipeline Replacement in Kinnison, Lindstrom, and Scott Tunnels at Plant No. 2, Project No. FE18-14, for a total amount not to exceed \$1,134,000; and
- C. Approve a contingency of \$170,100 (15%).

**BACKGROUND**

Plant water is screened and chlorinated secondary effluent used wherever higher-quality potable water is not necessary, such as for washdown or cooling. Plant water is somewhat corrosive leading to corrosion in metallic pipes. Plant water pipelines, along with many other utilities, are often located in tunnels throughout the plants so that they can be readily accessed and maintained.

**RELEVANT STANDARDS**

- Comply with California Public Contract Code Section 20103.8, award Construction Contract to lowest responsive, responsible bidder
- Maintain a proactive asset management program

## PROBLEM

Many of the plant water pipelines in the Kinnison, Lindstrom, and Scott Tunnels have been in place for decades and consist of pipes and appurtenances made from steel and ductile iron. The plant water system in these tunnels has a long history of leaks requiring emergency repair work.

## PROPOSED SOLUTION

Award a Construction Contract for Plant Water Pipeline Replacement in Kinnison, Lindstrom, and Scott Tunnels at Plant No. 2, Project No. FE18-14. This project will replace approximately 2,500 feet of plant water pipes ranging from 4 to 10 inches in diameter.

Staff recommends awarding a Construction Contract contingency of 15% rather than the usual 10%. This project will be doing work in the same areas as other construction projects and the complexity of work in congested utility tunnels often involves higher than average change order rates.

## TIMING CONCERNS

If this project is delayed, spot repairs would continue to be required on an emergency basis and outages could impact treatment processes that rely on plant water.

## RAMIFICATIONS OF NOT TAKING ACTION

Not moving forward with this project could cause the high cost and disruptive nature of emergency leak repair to continue in these areas.

## PRIOR COMMITTEE/BOARD ACTIONS

N/A

## ADDITIONAL INFORMATION

The Orange County Sanitation District (Sanitation District) advertised Project No. FE18-14 for bids on September 10, 2020 and 10 bids were received on October 20, 2020. A summary of the bid opening follows:

Engineer's Estimate	\$1,300,000
<u>Bidder</u>	<u>Amount of Bid</u>
MMC Inc.	\$1,134,000
J.F. Shea Construction, Inc.	\$1,149,000
Innovative Construction Solutions	\$1,149,435
Shimmick Construction Company, Inc.	\$1,290,000

J.R. Filanc Construction	\$1,317,900
PCL Construction Inc.	\$1,385,742
Aid Builders	\$1,420,000
Myers & Sons Construction, LLC	\$1,459,459
Tharsos Inc.	\$1,576,000
Environmental Construction, Inc.	\$1,649,383

The bids were evaluated in accordance with the Sanitation District's policies and procedures. A notice was sent to all bidders on November 24, 2020 informing them of the intent of Sanitation District staff to recommend award of the construction contract to MMC Inc.

Staff recommends awarding a Construction Contract to the lowest responsive bidder, MMC Inc., for a total amount not to exceed \$1,134,000.

### **CEQA**

The project is exempt from CEQA under the Class 1 categorical exemptions set forth in California Code of Regulations Section 15301 because the project involves repairs, replacement, and or minor alteration of existing facilities involving no expansion of use or capacity. A Notice of Exemption will be filed with the OC Clerk-Recorder after the Sanitation District's Board of Directors approves the Construction Contract.

### **FINANCIAL CONSIDERATIONS**

This request complies with authority levels of the Sanitation District's Purchasing Ordinance. This item has been budgeted. (Adopted Budget, Fiscal Years 2020-2021 and 2021-22, Section 8, Page 48, Small Construction Projects Program, Project No. M-FE) and the budget is sufficient for the recommended action.
