Adopt Resolution No. OCSD 20-01 entitled, "A Resolution of the Board of Directors of the Orange County Sanitation District, Granting Emergency Power to the General Manager in the Event the Public Health and Safety is Endangered due to a disruption of Sewer Service; and repealing Resolution No. 75-160"; and

BACKGROUND

The primary responsibility of the Orange County Sanitation District (Sanitation District) is to provide sewage collection, treatment, recycling, and disposal services for metropolitan Orange County serving a population of approximately 2.6 million people. The continued operation of the Sanitation District is essential to public health and safety. In the event of a National, State, or Local Emergency

or Disaster, where disruption, or potential disruption, of Sanitation District services due to employee absences or other matters beyond the control of the Sanitation District, the General Manager must be authorized to declare an emergency status to mitigate danger to the public health and safety.
