<b>Proposed Legislation 2026</b>						
<b>High Priority</b>						
<b>AB 35</b>	<b>Alvarez [D]</b>	This legislation, would exempt the adoption of regulations needed to effectuate or implement programs of the act from the requirements of the Administrative Procedure Act (APA). The bill would require a state entity that receives funding through Proposition 4 to administer a competitive grant program established using the Administrative Procedure Act exemption to do certain things, including develop draft project solicitation and evaluation guidelines and to submit those guidelines to the Secretary of the Natural Resources Agency, except as provided. The bill would require the Secretary of the Natural Resources Agency to post an electronic form of the guidelines submitted by a state entity and the subsequent verifications on the Natural Resources Agency's internet website. <b>AB 634</b>	<b>Gonzalez [R]</b>	The legislation intends to add tianeptine to the Schedule I category of controlled substances, reflecting the highest level of legal restriction. This action is intended to limit the potential misuse and abuse of the substance by prohibiting its manufacture and sale unless explicitly allowed. The bill emphasizes the importance of this classification to curb the substance's availability and mitigate associated risks to public health.	Referred to Senate Health and Senate Judiciary Committee	Watch	<b>Legislative and Regulatory Policies Source Control</b> – Support legislation, regulations, and funding assistance that would lead to decreased introduction of microplastics, and other contaminants of concern discharged into the sewer system. <b>AB 643</b>	<b>Wilson [D]</b>	AB 643 mandates a 75 percent reduction in organic waste disposal to landfills by 2025 to combat methane emissions. The bill tasks the Department of Resources Recycling and Recovery, along with the State Air Resources Board, with formulating associated regulations. Local jurisdictions are empowered to utilize organic materials as agricultural soil amendments to meet these goals, provided they follow specific guidelines. This approach aims to enhance California's climate resilience through sustainable waste management practices. <b>AB 748</b>	<b>Harabedian [D]</b>	AB 748 authorizes the development and use of preapproved single-family and multifamily housing plans that local agencies may adopt to expedite housing approvals and reduce duplicative design review. The bill adds Section 65852.29 to the Government Code, allowing a property owner to build housing consistent with a jurisdiction's preapproved plan without undergoing additional design review, provided the housing meets the criteria of the adopted plan. This aims to accelerate production of housing units while maintaining local standards for design and land use, reducing processing time and cost for both agencies and developers. The bill is intended to support increased housing supply and consistency in planning approaches across jurisdictions. AB 1621	Wilson [D]	AB 1621 aims to streamline and speed up the post-approval (postentitlement) permitting process for housing projects by setting clearer rules, firm timelines, and limits on agency reviews. Recent amendments strengthen the bill by capping plan check rounds, shortening appeal timelines, restricting new or changing requirements, and tying violations of these rules to the Housing Accountability Act, making it easier to hold local agencies accountable for delays or noncompliance. AB 1710	Carrilo [D]	AB 1710 redefines the criteria for "ordinances, policies, and standards" within housing development, adding materials, requirements, and standards imposed by other public agencies. It mandates compliance with existing plans and standards at the time of a preliminary application. The bill aligns with the Permit Streamlining Act, requiring projects considered for housing developments or emergency shelters to meet consistency and compliance evaluations. This bill enforces a state-mandated local program impacting all cities, including charter cities, and affects provisions for mandated cost reimbursements to local agencies.
